Biodentine™

Bioactive Dentine Substitute

- Versatile usage: endodontic repair and restorative procedures.
- Chair time savings thanks to direct bonding of the composite onto Biodentine™ now possible in the same session
- Natural micro mechanical anchorage for excellent sealing properties without surface preparation and for post operative sensitivity elimination
- Similar mechanical properties and mechanical behavior as human dentine for similar stress distribution
- 3.5mm Aluminium radiopacity for easy short and long term follow-up
- 15 x capsules + 15 x single-dose containers

BioRoot™ RCS

Root Canal Sealer

- Outstanding adhesion to dentine and gutta-percha points
- Hydrophilic - BioRoot RCS continues the sealing process in the presence of moisture
- Pure mineral formulation - will not stain teeth
- Resin-free - made from pure calcium silicate and is monomer-free ensuring zero shrinkage
- Great flowability - seals auxiliary canals
- Uses cold single cone or cold lateral condensation
- High 5mm Al radiopacity for clear images on radiographs
- 35 application pack - 15g bottle, 35 x 0.20mL liquid pipette, 1 measuring spoon
